

Martin Man

Full-Stack Developer (AI Integration)

Sai Kung, Hong Kong | +852 5621 7878 | martinman.jobhunt@gmail.com | martinman2020.github.io

PROFESSIONAL PROFILE

Full-Stack Developer building enterprise applications and backend systems, with hands-on technical design, implementation, testing and deployment. Delivers full-stack products within a two-person development team at a multi-unit NGO, with applied AI integration as an additional capability.

EXPERIENCE

Sep 2024 **Full-Stack Developer (AI Integration)**

– Present *Haven of Hope Christian Service, Hong Kong*

- **CarbonHub:** Built an end-to-end carbon platform (Next.js, Spring Boot, MySQL), adopted by 56 service units: schema/Flyway migrations, REST API, fiscal-year emission formulas, unit access controls, async ZIP audit exports and Windows/IIS deployment.
- **ARS:** Built attendance and roster features (Laravel, MySQL, SQL Server): punch-data imports, shift rules and department access controls with tests; GitLab CI/CD build/deploy to Windows IIS, with secrets outside Git.
- **AI Portal + MinutesAI:** Developed a Next.js staff portal for 18 units with SSO, user management and usage credits; audio-to-minutes workflow using Azure Speech-to-Text and Dify, with Word/PDF export.
- **Brand Review:** Development-stage agent (LangGraph.js, Next.js, Azure OpenAI Vision) checking uploaded posters against brand guidelines for colour, font, logo and layout.
- **Helpdesk RAG:** Built a staff assistant with Dify Knowledge Base and Azure OpenAI: internal-document ingestion, hybrid retrieval, reranking and answers with source citations.

Aug 2023 **Junior Programmer**

– Jun 2024 *CL Technical Services Limited · Client: Innovation and Technology Commission*

- Supported the Project Manager on the Research Clusters Division's InnoHK IT system: function design, data migration, SIT/UAT and maintenance; contributed to requirements work.

EDUCATION

2019–2023 **The Hong Kong University of Science and Technology (HKUST)**

BEng Computer Engineering · Second Class Honours Division I

2017–2019 **Community College of City University**

Associate of Science, Network & System Administration · Distinction

2015 **HKSYCIA Wong Tai Shan Memorial College**

Hong Kong Diploma of Secondary Education (HKDSE)
