

MAN TSZ KIT MARTIN

Full-Stack Developer (AI Integration)

Sai Kung, Hong Kong | +852 5621 7878 | mantszkitmartin@gmail.com | martinman2020.github.io

PROFESSIONAL PROFILE

Full-Stack Developer with 3+ years building production web apps and AI tools at a Hong Kong NGO — from a carbon platform (Next.js + Java, built end-to-end: UI, API, database, deploy) to applied AI products and reporting portals on enterprise databases. Holds a HKUST BEng (Computer Engineering, 2:1).

EXPERIENCE

Full-Stack Developer (AI Integration)

Sep 2024 – Present

Haven of Hope Christian Service, Hong Kong

- **CarbonHub** — Carbon footprint platform (Next.js + Java + MySQL), built end-to-end: schema & Flyway, Spring REST API, emission-formula engine with per-year controls, unit ACL, async ZIP audit exports, deployed on Windows/IIS/PM2 with PowerShell scripts.
- **AI Meeting Minutes** — Built a DifyAI pipeline transcribing & summarising up to 4-hour recordings into structured minutes.
- **CEO Dashboard** — Consolidated legacy departmental data into a real-time revenue view.
- **Poster Brand Review AI** — CursorAI poster review tool automating brand-compliance checks.
- **Department CRUD Systems** — Full-stack CRUD systems digitising paper workflows across departments.
- **Report Portal** — Extracted & migrated legacy vendor data into modern reporting via Report Portal.

Junior Programmer

Aug 2023 – Jun 2024

CL Technical Services Limited | Client: Innovation and Technology Commission

- Supported the Project Manager on an InnoHK IT system, covering requirements, function design, data migration, SIT/UAT and programme maintenance for the Research Clusters Division.

Hardware & Software Engineering Intern

Jun 2021 – Aug 2021

Laso Technology Limited, Hong Kong

- Arduino debugging and rapid prototyping for new hardware project ideas.
